Notes:

Clarification on ordering the build:

1. The price per m² is for the area itself. The price does not include any build elements.

2. You can use your own equipment or order the necessary items in the form below.

3. If you plan to build a booth only on one side, such as the back of the booth, select the element 'wall'. If you plan to build more than one side of the booth, i.e. 2 or 3 sides, you need to choose the element: 'system build'.

System build

Walls

4 In the case of ordering a wall longer than 3m a so-called brace will be added between the elements with the length of 50cm, which will stabilize the structure.

5. *Elements such as a 'shelf' , 'wall rack' , 'frieze inscription' , 'large format print on wall' , 'light point' - can only be ordered together with the wall system build.

6. To the price of the print, add the cost of the build on which it is to be made (such as a wall, counter, display case, etc.)

7. You can take the printed walls with you after the Convention. You must notify the Organizer if you want to take the walls (they will be dismantled on Sunday after 4 pm by the fair company).

8. In the case of ordering build elements (such as walls, system build, platforms, showcases, etc...) you are obliged to provide the organizer with a booth design (it can be prepared by hand), no later than on 13.04.2026
